

14 Watt LED Bulk Head Light

Lightwells 14W bulkhead range is a powerful yet energy efficient alternative to standard bulkhead luminaires. Engineered with a tough polycarbonate body and opal diffuser for even light output, they are ideal for all basic industrial, commercial and residential installations. All versions are impact resistant and designed to last. Available with emergency and microwave sensor options.

- IP54 rated for indoor applications
- Polycarbonate body & diffuser
- Emergency & Microwave options available
- Non-Dimmable as standard
- Energy savings & reduced maintenance
- Environmentally friendly: no mercury or hazardous substances

Application

Outdoor or Indoor, Domestic lighting, Retail lighting, Office lighting, Supermarket lighting, School lighting
